

Alma Workshop Schedule

The increased number of practitioners has important implications for the future of the medical industry. These symposiums are designed to educate practitioners on how to best transform their medical practice into a medical aesthetic practice. Attendees will learn more about the latest non-ablative technologies, cosmetic techniques, premium skincare products and best practice marketing and management techniques to advance their expertise and knowledge of the medical aesthetics industry.

Objectives:

- Explain the indications, technique and method of hair removal and vascular lesion removal.
- Explain the indications, technique and method of facial skin rejuvenations and non-ablative rejuvenation.
- Explain the indications technique and method of cellulite and unwanted adipose tissue reduction treatments.
- Discuss the potential complications and treatment of the above therapies.
- Discuss the basic science of the above treatments.

All of the workshops below are granted the following units from *THE Aesthetic Practice Association's*™ Certified Aesthetic Consultant™ program:

- 2 units of Basic Science
- 1 unit of Marketing Principles

To receive units you must show proof of attendance for the workshop by either faxing the document to: (949) 830-8944 or e-mailing the scanned document to: bill@tapamed.org.
